*Production and sale of coating powders, heat transfer film and equipment
for DECORATION WITH WOOD, MARBLE AND FANCY EFFECT
on aluminium and all materials which are crushproof at 200°C*

THE COMPANY

Production and sale of raw materials and plants for sublimation

83.000 sqm of technology, passion and experience!

Decoral System® is the leading Company in the world of sublimation:
*the know-how of the production of coating powders, sublimation films and plants
offers the top quality in the performances for our customers!*

Starting from a team of companies, born in 1973 and specialized in processing aluminium, **Decoral System®** developed and patented in 1993 the sublimation system **Decoral®**, which is a **technological process which accurately reproduces effects such as wood, marble, granite and fancy effects on metal and on other materials.**

The aluminium, iron, steel products of other customers have achieved since then an **ecological plus and versatility** and have enlarged the expression power of architects and designers. The process is now developed on industrial basis and it is known worldwide to be suitable as both **protection coating and innovation decor.**

The Company boasts today a solid industrial tradition together with development strategy, oriented to technological innovation. It is equipped with modern plants and state-of-the-art production process; **it has a large number of national and international quality brands and 74 patents. Decoral® Equipment and products are currently present in 98 Countries.**

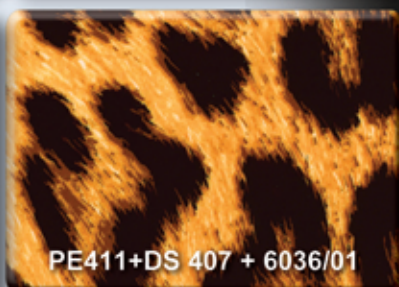

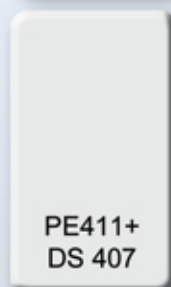

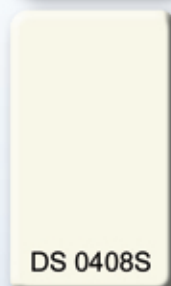

MORE THAN 4000 EFFECTS

Accurate reproduction of wood, marble, granite and fancy effects

PRODUCTION AND SALE

Coating Powder, Sublimation Film and Plants

COATING POWDER

The sublimation process, typical of our Decoral® finishes, starts from coating (using a traditional Powder coating line) your pre-treated metal with a layer of our specific Powders for sublimation, which are Qualicoat approved.

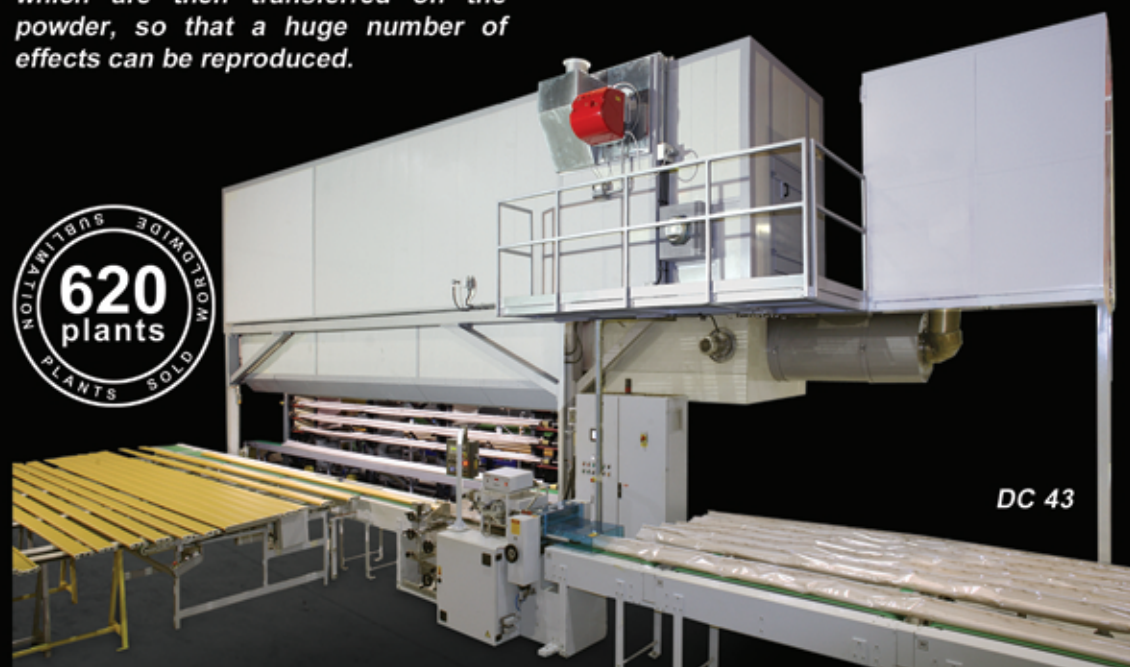

SUBLIMATION FILM

The sublimation films Decoral®, Qualideco approved, carry the patterns which are then transferred on the powder, so that a huge number of effects can be reproduced.

SUBLIMATION PLANTS

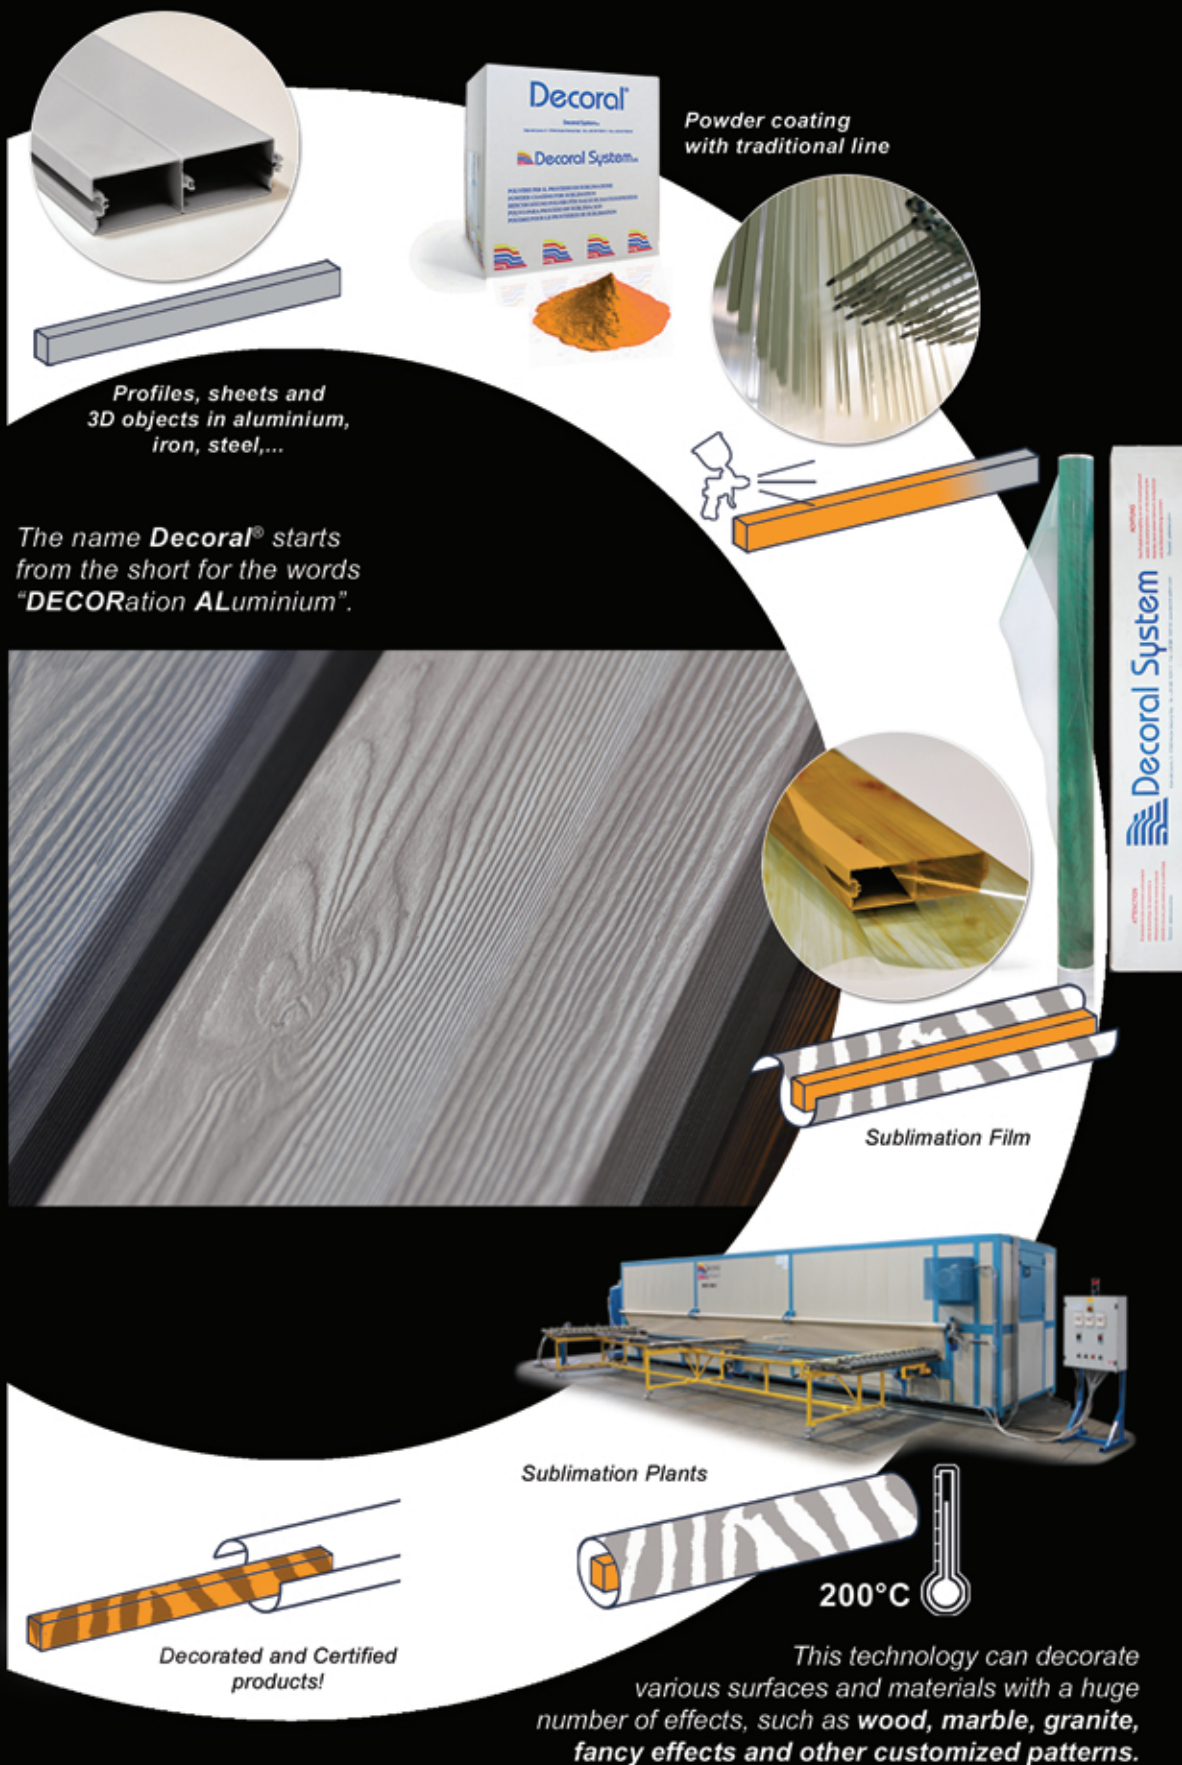

Thanks to specialized design and a long experience through the years, Decoral System® supplies industrial, qualified equipment, which can be customized for the various requirements of its numerous customers.

The Decoral® plants can decorate the whole surface of profiles, sheets and 3D objects of any size and shape.

WHAT IS DECORAL® PROCESS

Your product, our technology, more than 4000 effects!

Doors and Windows

Aluminium false ceilings

Indoor coating

Shelves and Furniture

Naval and Aviation

Outdoor coating

Balconies and Parapets

Outdoor furniture

Street furniture

Other than metal
